

Biological Dewar

Technifab Biological Dewar TCS-90-8

The Hold Time You Need, With Quality You Can Trust

Technifab's TCS-90-8 liquid nitrogen dewar is designed for extended hold capability, safety and convenience. It provides dependable, cost efficient storage of biological samples at cryogenic temperatures.

Features:

- Sturdy, endurance tested, lightweight aluminum construction.
- Designed for all types of inventory control.
- Optional Liquid Level warning device.
- Static daily LN₂ consumption rate of 0.4% per day.
- Static hold time of 225 days.
- 3-Year dewar warranty, one year on electronics.

Our biological dewar package contains the dewar, a lockable lid, and a rack system that can hold up to 1800 2ml vials.

Accessories:

Dewar lid with liquid level warning device

Logbook for cryogenic storage tracking

Sturdy roller base designed to easily move our 25, 35, 50, and 90 liter dewars

40" Retrieval Tool

Since 1992 Technifab Products has manufactured and installed vacuum jacketed pipe, transfer hoses, dewars, valves, and other cryogenic equipment. We also provide the industry leading warranty and service to back it up.
